

Execution Steps

Projects will be executed by ULBs. In case the ULBs do not have adequate capacity to handle projects, the State Government may recommend in SAAP, upon a Resolution passed by the ULB, for the execution of the projects by specialized parastatal agencies of the State or Central Governments. Such arrangements should necessarily be executed by way of a tripartite Memorandum of Understanding (MoU) amongst the State Government, the specialized Parastatal agencies and the concerned Municipality. In such a case, the capacity of the ULBs will be augmented through the capacity building component of the AMRUT. The maintenance and upkeep of the created assets will be the responsibility of the ULB and the State Government.

The MoUD will not give project-by-project approvals or technically sanction project DPRs; the States/UTs will be solely responsible for these activities. The MoUD has prepared comprehensive manuals and issued guidelines and advisories on solid waste management, sewerage, water supply, urban transport, etc. The State Level Technical Committee (SLTC) will ensure compliance with these technical documents. The flow chart given below gives the details of the complete process of planning, approval and implementation of the AMRUT.

Apex Committee allocates annual budget to States

The SHPSC gets city level Service Level Improvement Plans (SLIPs) prepared in order to provide water supply and sewerage connections to all in the city.

The SLIPs are aggregated to form the State Annual Action Plans (SAAP).

The Apex Committee appraises and approves the SAAP.

Execution begins.

The ULBs get the DPRs for identified projects approved by the SHPSC which are technically appraised by the SLTC.

Implementation begins after the detailed technical & financial appraisal of the DPRs.
